Interactions

Autocomplete

Draggable
(<https://jqueryui.com/draggable/>)

Draggable
(<https://jqueryui.com/droppable/>)

Resizable
(<https://jqueryui.com/resizable/>)

Selectable
(<https://jqueryui.com/selectable/>)

Sortable
(<https://jqueryui.com/sortable/>)

Enables users to quickly find and select from a pre-populated list of values as they type, leveraging searching and filtering.

Widgets

Accordion
(<https://jqueryui.com/accordion/>)

Autocomplete (https://jqueryui.com/autocomplete/)	The Autocomplete widgets provides suggestions while you type into the field. Here the suggestions are tags for programming languages, give "ja" (for Java or JavaScript) a try.
Button (https://jqueryui.com/button/)	

Button
(<https://jqueryui.com/button/>)

<p>Datepicker (https://jqueryui.com/datepicker/)</p>	<p>The datasource is a simple JavaScript array, provided to the widget using the source-option.</p>

Combobox
(/resources/demos/autocomplete/combobox.html)

Custom data and display
(/resources/demos/autocomplete/custom-data.html)

Multiple values
(/resources/demos/autocomplete/multiple.html)

Multiple, remote
(/resources/demos/autocomplete/multiple-remote.html)

Remote datasource
(/resources/demos/autocomplete/remote.html)

```
Remote JSONP
datasource
(/resources/demos/autocomplete/remote-
jsonp.html)
```

Remote with caching
(/resources/demos/autocomplete/remote-with-cache.html)

Scrollable results
(/resources/demos/autocomplete/maxheight.html)

XML data parsed once

(/resources/demos/autocomplete/xml.html)

The Autocomplete widget provides suggestions while you type into the field. Here the suggestions are tags for programming languages, give "ja" (for Java or JavaScript) a try.

The datasource is a simple JavaScript array, provided to the widget using the source-option.
